COMPANY INFORMATION

COMPANY NAME CHANGE

Since the beginning of the year 2000 Stamco Tooling International has experienced unprecedented growth in precision tooling sales in the overseas market. This prompted a business refocusing and name change in 2002 from the former company identity Stamco Tool & Die Pty Ltd to the current Stamco Tooling International.

DIRECTOR:

PAUL DALY

Thirty (30) years experience in high precision press tools and special purpose machines mechanical engineering

EMPLOYEES:

Twelve (12) Employees comprising two (2) Apprentices, seven (7) First Class Toolmakers and three (3) Management Staff.

INDUSTRIES SERVED:

- White Goods
- Automotive
- Household Appliances
- Industrial Products
- Packaging
- Building Products
- Aerospace
- Electronics and Electrical
- Communication

PRODUCTS AND SERVICES

- Tool design and prototypes
- High precision progression dies
- High precision press tools
- High precision fin tooling for the air-conditioning industry
- Re-sharpening Livernois Slitting Blades and Spacers for the heat exchange industry
- Precision gauges, jigs and fixtures
- Special purpose machines
- Highly accurate cylindrical and surface grinding

CUSTOMER BASE:

- Schefenacker
- Dekko USA
- Fedders USA
- Kirby Refrigeration
- Bitzer Australia
- Coldwright
- Tripac International
- F Muller
- Utilux
- Qantas
- Sunbeam
- Australian Nuclear Science & Technology Organisation
- British Medical Laboratories
- Darrell Lea
- Keystone-Tyco
- Soul Pattinson
- Volvo
- Walker Australia
- GEC Marconi
- Reserve Bank of Australia
- Tristar Steering & Suspension

TOOLING CAPACITY:

Up to 200 tonne

FACTORY AREA:

The Factory occupies 5000 square feet (approx 500 metres Square) of factory space in modern surroundings at Kogarah on the East Coast of New South Wales. The factory comprises offices, a drawing/design room with the latest cad software including Autocad 2002 and Mastercam Ver 8 along with all the usual communications necessary today to do business.

MANUFACTURING FACILITIES

CYLINDRICAL GRINDING:

- 1 Jones & Shipman 1305 Cylindrical Grinder –
- Serial No G16518

SURFACE GRINDING MACHINES:

- 1 Jones & Shipman 1999 540E Precision Surface Grinding Machine
- Jones & Shipman Precision Grinding Machines 1800 Series – Serial No's 16200/28/J and 16200 28J
- 1 Ruberg End Grinding Machine
- 1 Elb Schliff 40" x 20" x 20" Precision Grinder with automatic dressing attachment – Serial No 33611062

WIRE CUTTING MACHINE:

- 1 Sodick A320 with auto wire feed, 1995 model. Dimensions X = 320mm, Y=205mm, Z=175mm – Serial No 1457

E.D.M MACHINE:

- 1 John Dih Spark Eroder, 1990 model. Dimensions X=300mm, Y=250mm, Z=150mm – Serial No 024166

BANDSAWS:

- 1 Heska with power table traverse – Serial No 691476
- 1 Midsaw – Serial No 16105/7/J
- 1 Power Hacksaw – Serial No 415T50E 117 187 1009/25993

DRILLING PLANT:

- 3 Highspeed drills
- 3 Pedestal drills
- 1 Radial drill with 3" arm and table – Serial No 21085
- 1 Aciera Co-ordinate precision drilling machine – Serial No 684993

PRESSES:

- 1 8 tonne Lever Hand Press
- 1 John Heine 203 series 3 Power Press

CONT:

MILLING MACHINES:

- 1 Pacific FUTU 1400 Universal milling machine with digital readout – Serial No 4116
- 4 Bridgeport milling machines with digital readout – Serial No's 155653, 16257, 11855 and JB10355
- 1 Kopings Universal milling machine – Serial No 58853

LATHES:

- 1 12" Nuttal lathe – capacity 500mm diameter – Serial No P127
- 1 6 ½" Nuttal lathe
- 1 8 ½" Hamatu lathe – Serial No 710802
- 1 6" Hercus lathe with collets

METROLOGY ROOM:

- 1 Mitutoyo Height Master 300mm Ht – Serial No 700744
- 3 Granite Surface Plates 500 x 400 x 50mm
- 1 Mitutoyo Digital Ht guage 350mm Ht – Serial No 8402645
- 1 Mitutoyo 500mm Digital Ht guage – Serial No QC184
- 1 Set Mitutoyo accredited guage blocks
- 1 Sine vyce
- 3 sets guage blocks
- 1 Nikkon Profile and Surface Projector 6C – Serial No 54212
- Various sets of metric and imperial micrometers, cylindrical squares and angle plates

MISCELLANEOUS PLANT:

- 1 Rockwell Hardness Tester – Serial No E57955/13
- 1 Electric Heat Treatment Oven
- 1 Oxy and Acetylene welding set
- 1 Arc welder
- 1 Mig welder
- 3 Surface plates, rotary tables, 2 dividing head sets and various angle plates and vyces etc.
- 1 Length of factory hoist and 2 small portable cranes
- 1 Air grinder
- 1 Leroi twin cylinder air compressor
